

## Data Network & Management Task Team (DNMTT) Minutes

Co-leads, Jim McNierney ([JMcNierney@nyiso.com](mailto:JMcNierney@nyiso.com)) and

Dan Brancaccio ([dbrancaccio@bridgeenergygroup.com](mailto:dbrancaccio@bridgeenergygroup.com))

Teresa Carlon, NASPI web site and listserv contact ([teresa.carlon@pnnl.gov](mailto:teresa.carlon@pnnl.gov))

Email list address: [naspi-taskteam-data@lyris.pnnl.gov](mailto:naspi-taskteam-data@lyris.pnnl.gov)

August 15, 2017

### Attendees

Roll call – see page 2. Call led by Jim and Dan.

### Action Items

- Ryan Nice to look into setting up a collaborative SharePoint site at PJM – Teresa will follow up with Ryan.
- All – please review and comment on the NASPInet 2.0 document led by Jeff Taft at PNNL.
- Dan to check with BPA to see how PMU data is being shared and report to the DNMTT breakout. Terry would like to know more about this subject.
- Teresa to send an email to the DNMTT reminding them our next meeting will be the face-to-face in Springfield during the breakout session.
- Teresa to contact Jeff Taft to find out if he will be attending the Springfield meeting and if he can provide an update on NASPInet 2.0.

### Meeting Notes

- Jim and Dan would like to prepare for next month's DNMTT breakout in Springfield.
  - Looking forward to hearing from Ritchie Carroll on the advanced protocol.
  - Dan could talk about the protocol issues he has been experiencing.
  - Dan asserted that many folks have their registries up and running and our XML export registry effort might have been a little too late. If others would like to discuss and support this topic the task team leads would be happy to hear from you and what your company is doing in this subject area. Jim mentioned he would like to hear more about the registry discussion and what others are doing. Manual method seems to be working in many situations.
  - Jim asserted the DNMTT might want to talk about data archiving discussion.
  - Terry suggested discussion the logistics of finding institutions that share PMU data. Lessons learned, etc. BPA is sharing PMU data with about seven utilities.
- Call scheduling; do a doodle poll with enough lead time to find a time/day for the majority who will participate in the DNMTT call.
