

# Control Room Solutions Task Team Breakout Session Post Meeting Report Out

April 16, 2025

# CRSTT Mission Statement

The NASPI Control Room Solution Task Team's mission is to work collectively with other NASPI task teams to advance the use of real-time synchrophasor applications for the purpose of improving control room operations and grid resilience and reliability. The CRSTT will use its experience and regional diversity to provide advice, direction, support and guidance to NASPI stakeholders and other organizations involved in the development and implementation of real-time synchrophasor applications.

# Meeting Topics

- January Meeting Recap
- Dominion Energy's WAMS Deployment for Operations – Samantha Whalen, Electric Power Group and Emmanuel Oleka, Dominion Energy
- Update on Joint CRSTT/SMWG Roadmap for Integrating Synchrophasors into Operations – Clifton Black
- Discussion of SAR Development Task Force – Kevin Ostash

# Upcoming and Future Work

- Coordinate with SMWG and help with Roadmap document development
- Task Force for PMU monitoring requirement SAR development
- Information sharing from CRSTT members
- Control room/operations usage survey
