# NASPI Work Group Meeting

## OITT and Users Group Activities – February 2010

- *Continued conference calls-3<sup>rd</sup> Thursday each month*
- *Team developed another 6C training document on “small signal stability monitoring”*
- *Finalized the OITT 2010 goals*
  - *Operator training (learning from the data and good practices)*
  - *NASPI long-term viability*
  - *User-requested tools and features*
  - *Continue outreach to engage other vendors*
  - *Support RAPIR*
- *Users Group held two training webcasts on the use of wide area visualization applications. The video and audio from the webcasts to be posted on the NASPI “training resource” website: [www.naspi.org/resources/training/training.stm](http://www.naspi.org/resources/training/training.stm)*
- *Users Group held conference call and surveys in the development of their application roadmap. Work is underway on the short term enhancements.*
- *Subscribe to OITT list at [www.naspi.org/contact.stm/](http://www.naspi.org/contact.stm/)*
