NASPI DNMTT 2010 Focus

- Find Co-Chair ASAP
- Industry outreach & education
  - Work with SGIG awardees
  - Technical papers & FAQ
- Technical advancement
  - Develop & Test Prototype Designs
    - Aligned with NIST direction
  - Focus on near term useful set of NASPInet use cases
- Administration, roles & responsibilities
  - NASPInet governance → Internet analogy
 - PMU Registry & Other core services

DNMTT breakout agenda

- Call to order & Introductions
- Mainstreaming NASPI – Task Team
- Use case high level review - RTI
- Applicability of Standards - SISCO
- Phasor Gateways - GPA
- CISCO / STI Demo
- OSIsoft / SISCO Demo
- Optical Networks: An option to obtain high-availability & low-latency in networks – Harris Corp

Use case high level review

- Developed use cases will be vetted with the DNMTT group
- Plan is to establish "endorsed" use cases available to the community
- Language will be developed and included on the NASPI website to define what is meant by the endorsement

Thank you for participating!
