

## Data Network & Management Task Team (DNMTT) Minutes

Co-leads, Jim McNierney ([JMcNierney@nyiso.com](mailto:JMcNierney@nyiso.com)) and  
Dan Brancaccio ([dbrancaccio@bridgeenergygroup.com](mailto:dbrancaccio@bridgeenergygroup.com))  
Teresa Carlon, NASPI web site and listserv contact ([teresa.carlon@pnnl.gov](mailto:teresa.carlon@pnnl.gov))  
Email list address: [naspi-taskteam-data@lyris.pnnl.gov](mailto:naspi-taskteam-data@lyris.pnnl.gov)

June 14, 2017

### Attendees

Roll call – see list below. Call led by Jim McNierney

### Action Items

- Ryan Nice to look into setting up a collaborative SharePoint site at PJM – Teresa will follow up with Ryan.
- All – when working on the NASPInet and synchrophasor nest assessment documents, please edit with comments until the DNMTT can get a collaboration site stood up. The Word comments will be much easier to incorporate than tracked changes at this time. Thank you!

### Meeting Notes

- Jim began the call discussing the NASPInet table of content v 0.2 (May 2017). DNMTT was asked to put together some perspective for Jeff Taft at PNNL. Dan read document yesterday, the original NASPInet had little implementation information and not very useful. Dan's concern with the latest document is the "core requirements" section, not sure we should include this. Dan also asserted that he'd rather see Frank's original PARTF diagram (excel file) in this NASPInet document. Jim suggested we include this information in the core requirements. Dan would like to see 1) applications requirements list (Frank), 2) need to minimize the last mile connection. Sharing data and sending to RC is challenge in that last month.
- How are the mechanics of working on this document supposed to happen? PJM and PNNL have SharePoint services. PNNL has a NASPI SP site already standing and other TTs are using the collaborative site. The advantage to using PNNL's resources is that a user can have access to other NASPI task team work products while using one username/password credentials (one-to-many relationship).
