Ongoing Business

Sascha has put the latest version of the DisTT white paper on the NASPI DisTT SharePoint site (<https://spteams1.pnnl.gov/sites/naspi/distt/default.aspx>). Individual have agreed to work on certain sections. Anyone with access can download the paper and provide feedback. Sacha would like to have a draft pulled together within the next couple of weeks. A note about SharePoint's version control: There is no need to upload separate files for version control. Users may "check out" the file, make edits, and then save back to the SharePoint server. SharePoint stores previous versions of documents each time someone saves and checks the document back in. If you need assistance with this feature or would like access to work on the document please email teresa.carlon@pnnl.gov. She will walk you through the process on how to get access. The following people have access to the above location:
