Email list address: naspi-taskteam-data@lyris.pnnl.gov

March 5, 2019

Attendees

Roll call – see list below.

Action Items

- *Dan Brancaccio has the following action items:*
 - *Contact Frank @ EPG –regarding archiving strategies at the technical workshop in San Diego.*
 - *Confirm with Yi Hu to see if he can present IEC 61850-90-5 update at the workshop in San Diego.*
 - *New PDC Standard – who will attend? Vasudev / Mahenda / Harold ?.*

Meeting Notes

- *Many thanks* to Jim McNierney for being a co-lead over the years! You'll be missed at the NASPI meetings, good luck in your new positions. Please *welcome* Matt Rhodes as the new co-lead position for the DNMTT.
- Over two years since we've had regular DNMTT calls and it has been a number of years since the DNMTT has produced any documents but we hope to change that this year by providing valuable information to the synchrophasor community in general with regards to communications and data archiving.
- The task team breakouts will be handled a little differently in San Diego. There will be no task team breakouts, instead the task teams will provide a 30 minutes update during the main Work Group meeting to allow attendees the ability to hear what each team is working on, instead of having to pick/choose what breakout to attend.
- April 15, 2019 – Technical Workshop in San Diego to discuss n-depth communications and networking issues, and archiving data. Dan reviewed the draft technical workshop agenda on the call and edits were made. Thank you to those who have volunteered to participate in the workshop.
