

# DNMTT

---

MAY 14, 2019

CONFERENCE CALL

A solid orange horizontal bar at the bottom of the slide.

# Agenda

---

- Review Criteria A Projects and schedule
- Discuss Criteria B Projects
- Round Table

# Criteria A Projects

---

- A1. (Best Practices Document) Industry research on in-service and new archive strategies
- Motivation statement – Best Practices document to foster enhancement of synchrophasor archive to data-as-service
  - Utility Survey Questions
    - What is your data collection method (i.e. PMU-PDC-archive or other?) – description or diagram (Note: Want to discover central and distributed architectures)
    - What is the format of data you are collecting?
    - How do you archive data (i.e. internal server storage architecture)?
  - Vendor Survey
    - What is your method of collecting/archiving data? (Note: Want to discover central and distributed architectures)
    - What is the format of data you are collecting?
    - How do you archive data (i.e. internal server storage architecture)?
    - Describe field deployed instances of your platform.
- A2. NASPInet 2.0 review and recommendations based on new technologies

# Criteria B Projects

---

- B1. [C37.118 discussion/proposal for IEEE](#)
  - Vendor survey – how flags are set in PMUs
  - PDC re-setting of flags – benefits or hazards for downstream users
  - Addressing Fraction of Second issue (FOC)?
- B2. [Data Availability](#)
  - Revisit use case document (Frank Tuffner PNNL)
    - Determine minimum availability
  - Develop KPI for availability
    - Incorporate PARTF
  - Tools to track availability and investigate source of problem
