

NASPI Work Group Meeting October 28-30, 2019

The Westin Richmond 6631 West Broad Street Richmond, Virginia, 23230

The October NASPI Work Group meeting will be held in Richmond, Virginia, on October 28-30, 2019. This meeting will feature invited user success stories, NASPI Technology Partner presentations & vendor show, and a poster session. You will hear presentations from companies and individuals who are using synchrophasor technology successfully to solve specific challenges and the lessons they learned along the way. Our distinguished keynote speakers are Kevin Curtis, Vice President, Electric Transmission and David Roop, Director, Electric Transmission Operations & Reliability from Dominion Energy, Inc.

NASPI will host a complimentary Train-the-Trainer technical workshop on October 28, 2019 from 1:00-5:00PM also at The Westin Richmond. The Train-the-Trainer workshop is coordinated by Michael Cassiadoro, Total Reliability Solutions, LLC and chair of the NASPI Control Room Solutions Task Team. This session is designed for system operators and electric utility trainers that wish to incorporate the previously-developed eight-hour *Use of Time Synchronized Measurements in Real-Time Operations* training course into their respective training programs. This workshop will explain how the course was designed, review the course materials to ensure underlying knowledge requirements are met, and provide pointers on how customize the training materials to meet your company's specific needs. No registration is required to attend the Train-the-Trainer technical workshop.

Partnership Opportunities (a.k.a. Vendors): We are thrilled to announce an opportunity for our partners to address the NASPI Work Group attendees during the General Session. We are encouraging the partners to participate in our first ever NASPI Technology Partner Presentations. Each partner will have an opportunity to address the entire work group audience throughout the meeting. Partners, this is your opportunity to share your work, technological advancements, innovative ideas, and updates with the larger group which we hope will foster further networking and collaboration, in addition to the traditional tabletop display opportunities available throughout Tuesday and Wednesday to maximize networking opportunities.

NASPI Poster Session: Posters will be displayed Tuesday, October 29th, during the NASPI reception.

NASPI Work Group registration. The registration fee is \$600 for regular attendees and \$175 for students.
