### Meeting Notes

- Reviewed the March 5, 2020 call notes.
- NASPI DNMTT Abstract call was emailed to the NASPI Work Group.
- Dig up Frank Tuffner's Excel file regarding latency (see *reference documents* below).
- Changes to the work plan were incorporated and uploaded to the NASPI DNMTT web page.
- Presentation of utility archive survey results summary document produced by John Volpert.
  - Document attached (SurveyResultsVolpert.docx) for DNMTT to review.
- Reviewed of DNMTT organizational update for the April 16th webinar.
- Discussion and fine tuning of Synchrophasor Application-Based Guide for Archive and Network Strategies (ABGANS)
  - Mahendra suggested that functional requirements of archives and networks based on application requirements would be beneficial - This will be incorporated into Phase 2 of the project.
  - The application level testing of PARTF was discussed by Mahendra as beneficial to the industry. This is true but the ABGANS document is focused to be a high-level guide only.
  - Discussions with Allen Goldstein, however, on the status of PARTF is encouraged
  - Dan Brancaccio suggested we include a reference section on utility network structures (generic latencies, generic bandwidths) in the form of an XY chart for assisting utilities in categorizing their existing network.
  - ABGANS Guide document sent to all DNMTT members for review at the next conference call.
- New poll on the conference call time will go out as Terry Jones has conflicts at 11PT/2EST. Meeting date, first Thursday of the month, will remain.
