

EIDSN's Purposes

- Facilitate an efficient, effective and secure network for the sharing of operating reliability data among its members and participants.
- Promote the reliable and efficient operation of the Bulk Electric System (BES) through use of Electric Information Network (EInet).
- Currently includes sharing both SCADA and synchrophasor data among appropriate entities.
- Facilitate the adoption, development and support for various software tools for members and participants that promote the reliable and efficient operation of the Bulk Electric System.

Electric Information Network - Elnet
