

NASPI Work Group Meeting  
Control Room Solutions Task Team Update

Wednesday October 6, 2021

# Welcome Cody Parker

- Cody Parker from SPP joined us as our new co-chair!
- After many years of leadership of the group, Mike Cassiadoro stepped down in August.

# CRSTT Mission Statement

The NASPI Control Room Solution Task Team's mission is to work collectively with other NASPI task teams to advance the use of real-time synchrophasor applications for the purpose of improving control room operations and grid reliability. The CRSTT will use its experience and regional diversity to provide advice, direction, support and guidance to NASPI stakeholders and other organizations involved in the development and implementation of real-time synchrophasor applications.

# Monthly Meetings

- Continue to have joint meetings with DisTT (thanks to Sascha and Dan for working with us)
- Looking to bring in presenters who are using the data to support real time
  - Atena Darvishi from NYPA presented in September
  - Please let us know if you'd be willing to present on your uses of the data to support real time operations
- Interesting Event Reviews (when data available)
- Training updates from Mike

# In the queue

- Still on track to host a panel session NASPI Spring 2022 on the use of synchrophasor / synchronized measurement data to support real time operations
- Always open to sharing (or developing if data provided) videos for events on our team page
- Continue to develop short use case documents as needs identified. System inertia monitoring currently only item on our ‘to do’ list.

# CRSTT – Primary Contacts

Name: Cody Parker

Email: [CParker@SPP.org](mailto:CParker@SPP.org) , Phone: 501-614-3297

Name: Jim Kleitsch
