

Who Are We??

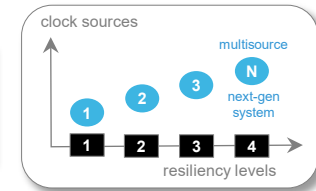

What do WE (really) do?

Oscilloquartz - 75+ years of know-how in network sync

- ✓ **#1** - Industry's first supplier of sync solutions
- ✓ **#1** - The leader in resilient & assured PNT & packet-based timing
- ✓ **#1** - Leading-edge technologies in defense-in-depth PNT cyberthreat protection, including multilayer detection, zero-trust multisource backup & multilevel fault-tolerant mitigation, aligned with these industry standards:

- ✓ **#1** - The leader in field-proven, vendor-agnostic & intelligent sync network management
- ✓ **#1** - Industry's best complete portfolio of trusted sync services, from network design to installation to commissioning

The **#1** trusted secure sync solution provider globally

OSA secure timing products by best-fit/cost application

accessSync™

OSA 5401 SFP SyncPlug

OSA 5405-I/O/MB/P

OSAinside™

OSA 5400 SyncModule

TimeCard

OSA SoftSync Linux

edgeSync™

OSA 541x

OSA 5412

edgeSync+™

OSA 5420/21

OSA 5422

device/network Monitor

Adtran expands
Oscilloquartz timing portfolio
with White Rabbit for sub-
nanosecond synchronization

- 1-First optically pumped cesium
- 2-First to holdover 100ns for 100 days
- 3-10 year tube life

Seamless time
synchronization for
national security

Our Time Scale System delivers precise synchronization with UTC, providing reliable time for critical infrastructures and protecting against GNSS disruptions.

- 1-LEO & MEO!!
- 2-Redundant power supplies
- 3-Full Grandmaster capabilities!!

THANK YOU!

Rick Knea– Senior Manager Business Development
